Los Angeles City College has developed a partnership with First Five LA to implement the Bridges to Early Childhood Education (ECE) Program.

The goal of Bridges to ECE is to work one-on-one with high school students who are interested in the field of Child Development and/or Early Childhood Education.

Mission Statement

To promote the belief that high school students can actively engage in advanced childhood education courses while completing their high school diploma.

Program Overview

Bridges to Early Childhood Education (ECE) is a professional program designed to give high school students an insight into the field of early childhood education. Bridges to ECE utilizes theory and hands on training to encourage students to actively explore a career in early childhood education.

We strive to deliver a continual learning process and do so in three steps:

More young people are considering Early Childhood Education as a possible career

Program Requirements

Students need to have a sincere interest in pursuing early childhood education as a career.

Step I

Preliminary Activities

- *Orientation meetings
 - *Career workshops
 - *Career exploration
- The goal is to help students understand the field of early childhood education.

Step II Fieldtrips

Guided fieldtrips to early childhood education centers help students gain an insight into the field of early childhood education.

Students get an opportunity to observe, interact, and participate in curriculum activities.

Step III

Education and Credits

Child Development courses help students gain college and high school credit while further exploring the career of early childhood education.

Begin taking your first two child development courses on your own campus!

Child Development 1
(Child Growth and Development)
Child Development 11
(Home, School, and Community Relations)
